Solid Panel Color

- | | INT. | EXT. |
|--|--------------------------|--------------------------|
| <input type="checkbox"/> White Pebble | <input type="checkbox"/> | <input type="checkbox"/> |
| <input type="checkbox"/> White Stucco | <input type="checkbox"/> | <input type="checkbox"/> |
| <input type="checkbox"/> Almond Pebble | <input type="checkbox"/> | <input type="checkbox"/> |
| <input type="checkbox"/> Almond Stucco | <input type="checkbox"/> | <input type="checkbox"/> |

Foundation

- Wood Deck
 Patio Slab

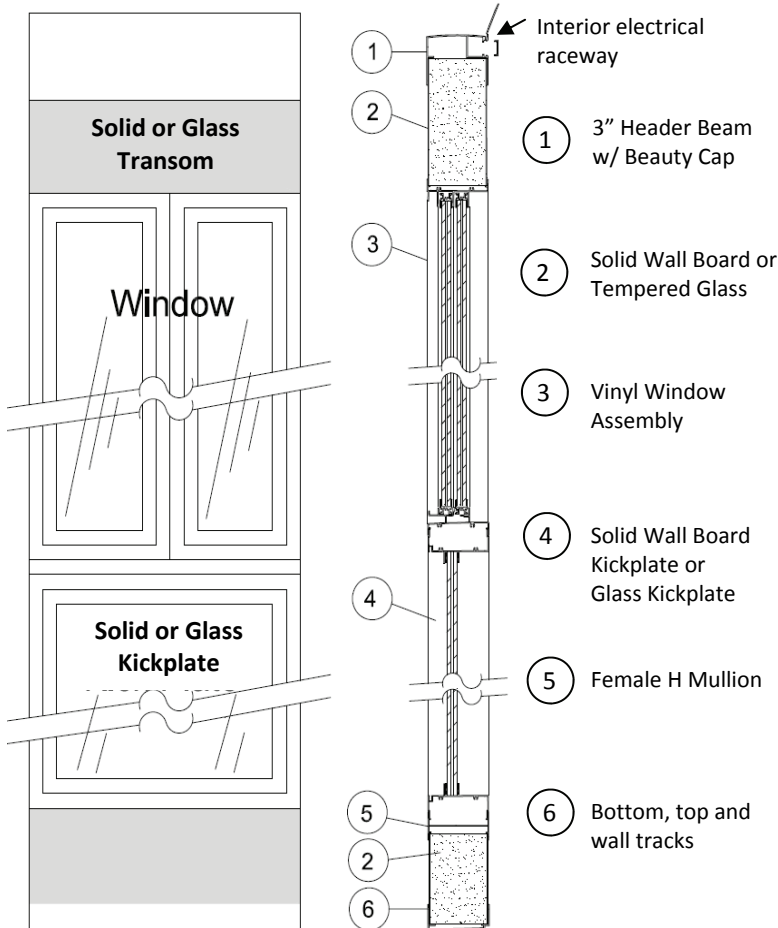

Total Slope

House wall to front edge _____ LEFT Right

Total Slope Front Wall

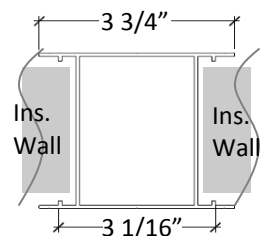

Left edge to right edge _____

* All reference points are to be understood as from the outside (backyard) looking in (at the house wall).

of Electrical Utility Mullions

- _____ 8' tall _____ 10' tall
 _____ 10' tall ALL

*This option allows for electrical boxes to be installed. The standard H channel creates a 7/16" width between panels. The EUM creates a 3 1/16" width between panels. Consider the aesthetics along a single wall for this option.

Alpha Plus Order Form

Be sure to include **all** measurements - - heights, distances between posts, length of walls, door placements with distance from post or house wall.

* Kickplate, doors and transom glass will match the 'glass package' you have chosen for your windows

* All wall modules will have at least a "small (2-4") portion" of solid panel both top and bottom which can be trimmed for the purpose of leveling each module along sloping surfaces and relative to each other.

Existing front corner post? Yes No

Distance from wall to first post

Distance from wall to door frame...

Distance from wall to door frame...

Distance from wall to first post

Distance from post to next post

Distance from post to next post

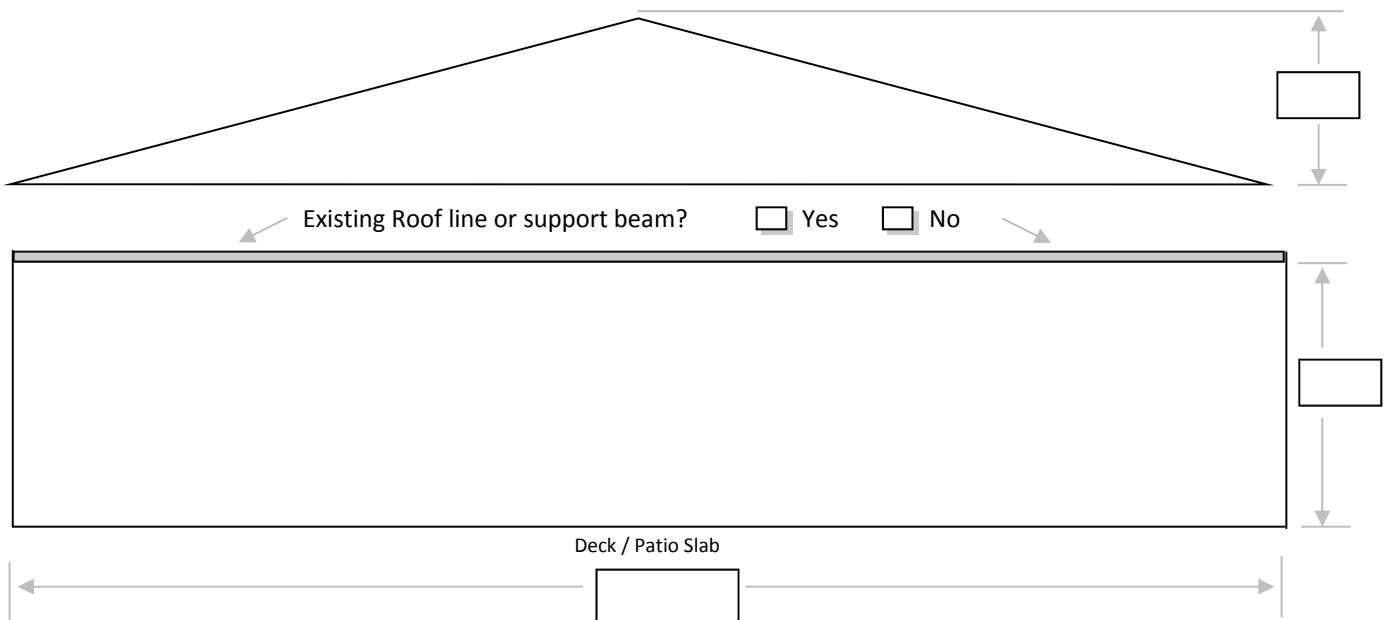

Distance from post to next post

Distance from post to corner

Distance from post to corner

Be sure to include **all** measurements - - heights, widths, & length of walls. Indicate where you want doors with distance from house wall to door frame. If you require electrical utility mullions indicate how many and approximate placements - simple write "EUM."

Existing Roof line or support beam? Yes No
