

To help us assess the material needs for your project please submit a drawing. You can fax us your submission, scan & email us your submission or take a picture & email your submission.

Be sure to include in your drawing...

1. All widths, heights, distance between existing posts & length of walls
2. Indicate all existing posts that are being incorporated in the installation
3. Tell us if you are not including any existing posts in the installation.
4. If not using existing posts, it may be useful to indicate how far inside or outside of the existing posts the screen wall is being installed
5. Be sure to let us know if the screen walls are being installed inside existing hand-railings.
6. Whether you want a kickplate or not (available in 18" or 24" high)
7. Door placements and distance from wall or post if applicable
8. Frame color (available in white, clay or bronze)

- Standard 18x16 mesh fiberglass screening is supplied. Let us know if you need another type of screening
- We generally supply the doors and screening for you, however if you wish to supply your own door or screening, just let us know.
- Your quotation will include the delivered cost for your materials, a quick outline of the materials you will be receiving and an overhead view of where to place the verticals in your application.

Porch Screening Kit Quote Form

Step 1: Basic Information

First Name: Last Name: Tel:

Email: City: State:

Step 2: Project Details

Installation

Are the screen walls to be installed inside existing handrails? YES NO

Are the existing posts to be used in the installation? YES NO

If you answered "no" to question #2 are the walls to be installed inside the existing posts? YES NO

If you answered "no" to question #2 are the walls to be installed outside the existing posts? YES NO

NOTE: In your drawing on the following page, be sure to indicate **all** existing posts. Show distance from house wall to posts and between posts across the front. Provide tallest wall heights for each of your sections. We will need the measurements for door placements relative to a post or house wall.

Kickplate

18" Kickplate 24" Kickplate *No Kickplate

*If the 'no kickplate' option is chosen, you will be supplied with a 2" x 2" horizontal chair rail which can be installed at any height desired.

Frame Color White Framing Clay Framing Dark Bronze Framing

Doors

Do you want to supply your own door(s)? YES NO

(Either way please be sure to indicate door placement (s) in the drawing on next page)

Screening

Standard fiberglass screening 60% Solar screening You want to supply your own screening

Pet Screening No See Um Screening

Other screening ...

Check our screening selection on our WEB site... http://www.homeporchandpatiokits.com/screening_selection.htm

Step 3: Measurements

Please fill out the following information from an 'outside looking in' perspective.

See the drawing on the first page for the 'outside looking in perspective.'

Left Elevation (measurement away from house wall)

Scenario 1: Wall to Corner Post

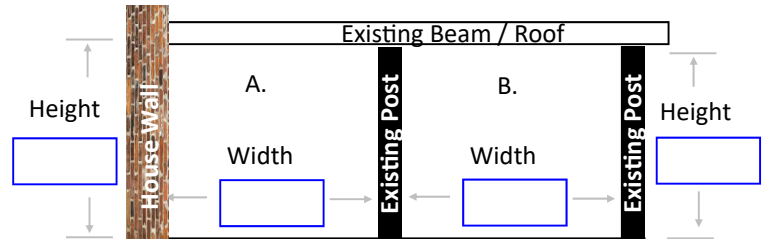

Door Placement: How far from the house wall would you like it to be? '0' = at the house wall

ft. in.

Door LHS RHS
Hinged:

Scenario 2: Wall to Post (A) | Post to Corner Post (B)

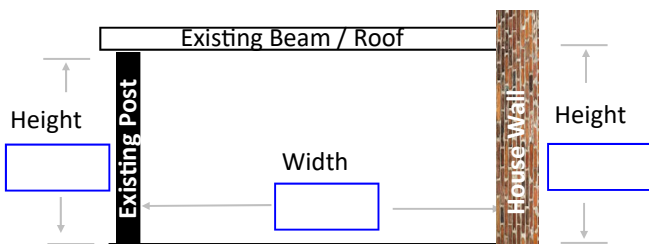

Door Placement: How far from the house wall or first post, would you like it to be? 0 = at the house wall | 0 = at first post

A. ft. in. B. ft. in.

Door LHS RHS Door LHS RHS
Hinged: Hinged:

Right Elevation

Scenario 1: Corner Post to Wall

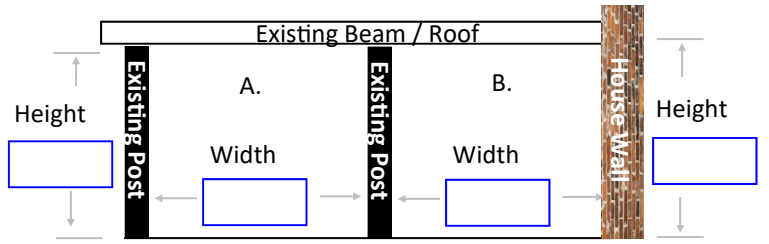

Door Placement: How far from the corner post would you like it to be? '0' = at the corner post

ft. in.

Door LHS RHS
Hinged:

Scenario 2: Corner Post to Post (A) | Post to House Wall (B)

Door Placement: How far from the corner post or first post, would you like it to be? 0 = at the corner post | 0 = at first post

A. ft. in. B. ft. in.

Door LHS RHS Door LHS RHS
Hinged: Hinged:

Notes:

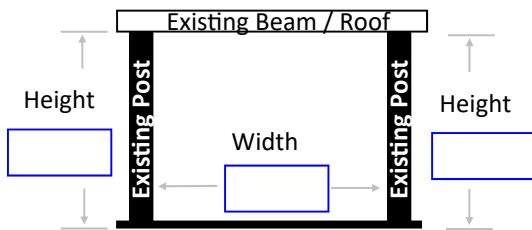

Step 3: Measurements (cont'd)

Please fill out the following information from an 'outside looking in' perspective.

See the drawing on the first page for the 'outside looking in perspective.'

Front Elevation

Scenario 1: Corner Post to Corner Post

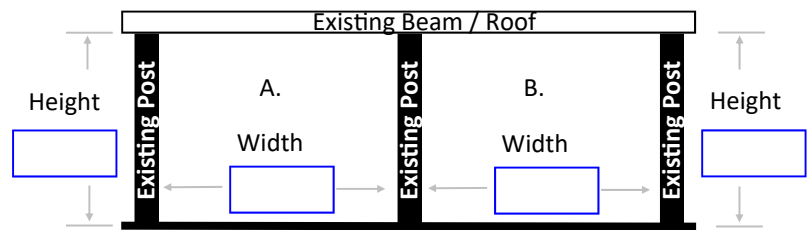

Door Placement: How far from the left post would you like it to be? '0' = at the left post

ft. in.

Door LHS RHS
Hinged:

Scenario 2: Corner Post to Post (A) | Post to Corner Post

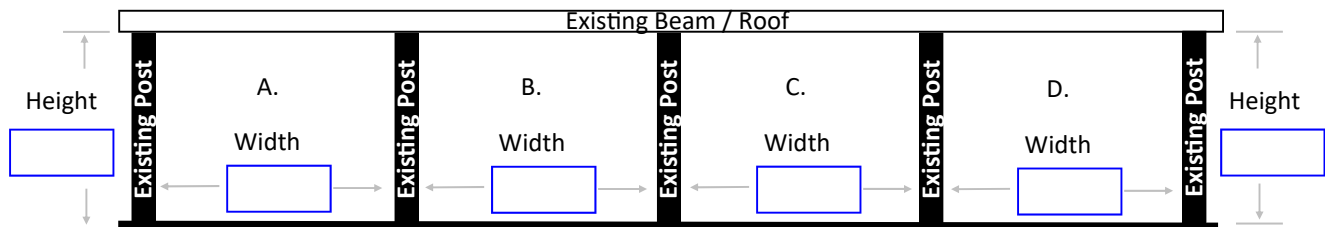

Door Placement: How far from the left post or center post, would you like it to be? 0 = at the left post | 0 = at center post

A. ft. in. B. ft. in.

Door LHS RHS Door LHS RHS
Hinged: Hinged:

Scenario 3: Corner Post to Post (A) | Post to Post (B) | Post to Post (C) | Post to Corner Post (D)

*If you only have 3 sections then simply ignore section C

Door Placement: In each section, how far from the left hand post would you like it to be? 0 = at the post

A. ft. in. B. ft. in. C. ft. in. D. ft. in.

Door LHS RHS Door LHS RHS Door LHS RHS Door LHS RHS
Hinged: Hinged: Hinged: Hinged:
