

Retractable Patio Awnings

When it comes to retractable awnings, for shading your backyard deck or patio, the NuShade line of patio awnings is exactly what you have been looking for! For over 25 years Futureguard has been the largest and most respected manufacturer of stationary and retractable products in the USA. We proudly provide homeowners and business owners alike with superior shading solutions perfect for the needs of each individual customer. Made in the USA with extruded aluminum profiles, powder coated for lasting performance, available with special order Sunbrella® fabric, or save even more with our exclusive selection of in-stock NuShade 100% solution dyed acrylic fabric. Delivery from the factory to your home! Take that sun-soaked area in your backyard, install a NuShade patio awning and quickly transform it into a space the whole family can use.

With our optional motor, a simple push of a button operates your awning effortlessly.

Add an optional Weatherguard™ Cover to protect your fabric from the elements and dirt while retracted.

Roof mount kit available when wall space height requirements cannot be met.

- Completely manufactured & assembled in the USA
- Easy-to-install with an extra set of hands
- Delivered factory direct to you... ready to install including hardware for wood frame installation (hardware for installation on all other surfaces will need to be purchased locally)
- Full five (5) year warranty on frame, fabric and motor for all models
- Passed European testing standards for TUV certification
- NuShade Patio Awnings come with 16 exclusive 100% solution dyed acrylic fabric options at no additional charge, as well as hundreds of special order Sunbrella® fabrics.
- For only \$249.00 US you can upgrade to a choice of Sunbrella fabric colors
- Sunbrella fabrics have been granted **The Skin Cancer Foundation's Seal of Recommendation**, ensuring that its products help to protect you from the sun's harmful UVA and UVB rays
- Factory powder coated framing, available in either White, Almond, or Brown

Retractable Patio Awnings

- Heavy duty flex arms operating with *stainless steel chains* (not plastic wrapped cables) are standard on every awning
- 7 pin aluminum shoulder for superior support of the retractable arms
- Awning opens and closes with a simple turn of a handle. Naturally you can motorize your awning if you wish!
- Manual over-ride protection is standard on all motorized awnings
- Motorized awnings come standard with an 18' cord to plug into a standard 110v GFI outdoor rated outlet
- Motors come standard with internal heat sensors to prevent the motor from overheating

We ship this product throughout
the contiguous USA 
(delivered to your home)

All pricing given below is
the delivered cost!

Retractable Patio Awnings

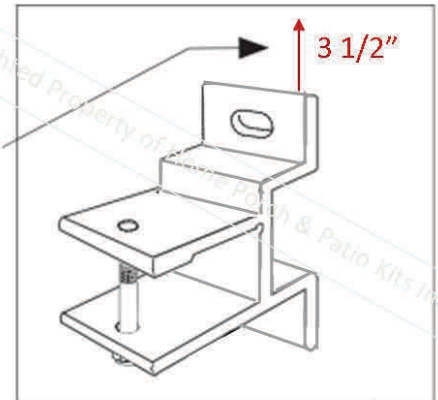

- Choose right or left operation of crank handle / motor Facing the house, specify the side you want the standard crank handle or motor.
- Awning comes pre-pitched at 15 degrees... roughly 18" over 10 feet
- The NuShade awnings comes with a full 9" (removable) front valence
- Available in custom widths up to 20' in one foot increments

- Note: The width of the fabric is always 6" less than the total width of the awnings
- The frame is composed of powder coated steel and aluminum components with a stainless steel chain arm-tension system, which is virtually maintenance-free. All the hardware is made of high quality, corrosion-resistant materials. Over time, dust and dirt will collect on the frame and will require periodic cleaning to maintain its appearance.
- You should know in advance how to care for your fabric
- You should review how to measure for your awning. See bracket illustration below and reference the how to measure page on our WEB site.
- Optional Weather-guard available -- See first page
- Optional Roof Mount Kit available -- See first page

Available Frame Colors

Standard mounting bracket shown here. You will need to leave at least 3 1/2" above the mounting brackets.

Delivered to your home within 21 days!
